LOVE FOR ALL HATRED FOR NONE

Hadhrat Musleh Maud^{ra}

"His writings and addresses are a great treasure that he bequeathed to the Jamaat during his life and period of Khilafat"

Hudhur recently paid a special tribute to the 'Promised Son', Hadhrat Mirza Bashiruddin Mahmood Ahmad^{ra} who was also the Second Khalifa of the Promised Messiah^{as}.

During his Friday Sermon, delivered on 22nd February 2013, Hadhrat Mirza Masroor Ahmad read excerpts from an address delivered by Hadhrat Mirza Bashiruddin Mahmood Ahmad^{ra} on 10 April 1942 about the importance of prayer and the conditions for its acceptance. Commenting upon the Second Khalifa's immense knowledge, Hadhrat Mirza Masroor Ahmad said:

"There are many aspects of the intelligence, knowledge and spiritual insight given to the Second Khalifa by God Almighty. His writings and speeches were full of knowledge and spiritual insight even before his becoming Khalifa... His writings and addresses are a great treasure that he bequeathed to the Jamaat during his life and period of Khilafat."

The Second Khalifa's address from 1942 was delivered with reference to a verse of the Holy Qur'an in which it is stated that God Almighty answers the call of a distressed person. [Holy Qur'an, Chapter 27, Verse 63]

Hadhrat Mirza Masroor Ahmad said prayer remained the most important means for all success and progress in the world today and thus the words of the Second Khalifa were just as important today as they were at the time.

His Holiness said:

"The situation today remains the same as before. Despite my repeated reminders, the attention that is being paid towards prayers and self-reformation is not occurring to the level it should."

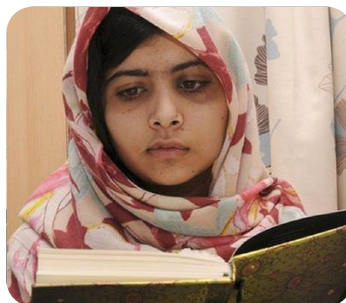

Nobel Peace Prize

Malala Yousafzai, the Pakistani schoolgirl shot by the Taliban for campaigning for girls' education, has been nominated for one of the world's top awards.

The 15-year-old is nominated for the Nobel Peace Prize, which each year is awarded to a person or organisation that's seen to promote friendliness and peace.

This year a record 259 nominations were received and the winner of the prize will be announced in October.

The Nobel Prizes also include awards in medicine, physics, chemistry and literature.
