“EDUCATION OF GIRLS IS  
PARAMOUNT TO A COHESIVE  
SOCIETY”

(Huzoor's (aba) address to Lajna and Nasirat Ijtema 2023)

HAZRAT KHALIFATUL  
MASIH V'S CAREER  
ADVICE TO GIRLS AND  
WOMEN

**MADIHA FROM SHEFFIELD ASKED HUZoor (ABA) WHICH FIELD AHMADI GIRLS SHOULD GO INTO TO BEST SERVE THE JAMAAT AND HUMANITY.**

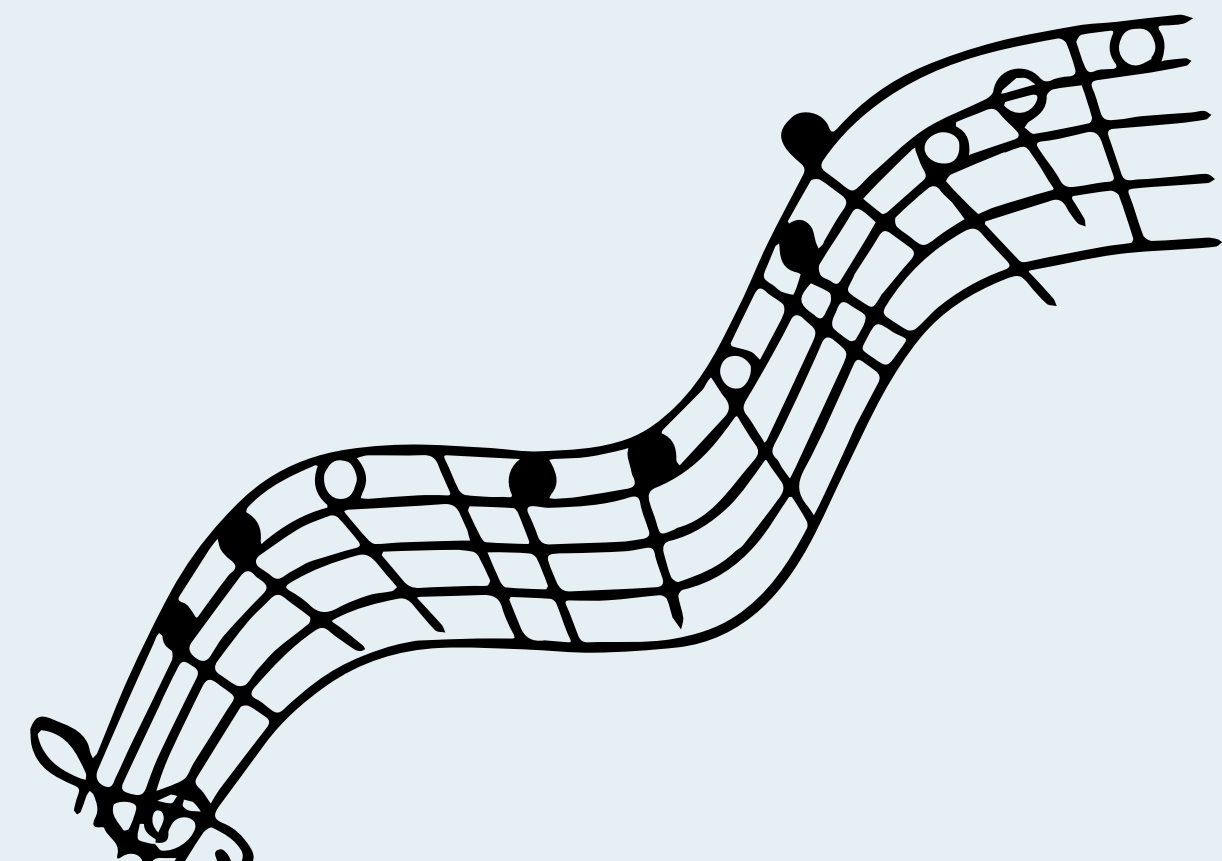

Speaking with her, Huzoor (aba) asked, “What is your opinion?”, to which she responded by saying medicine. Huzoor (aba) then said, “Then the first preference should be in medicine; second, teaching; third, human rights law; fourth, engineering. Then, with regard to this present-day problem, global warming. So, you can study this subject as well. Any field which is beneficial for human beings, Ahmadi girls should follow that field. So, for Waqf-e-Nau girls, the first preference should be medicine, teaching. That is what I prefer. Otherwise, there are so many fields which are beneficial for human beings that can be taken up by Ahmadi girls as well.”

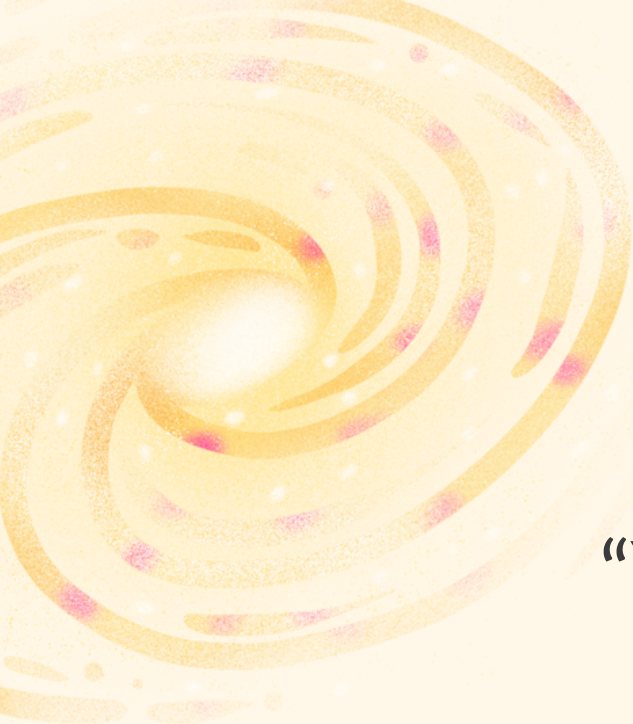

SHAMAMA FROM HUDDERSFIELD NORTH ASKED WHICH CAREER PATHS HAZRAT KHALIFATUL MASIH V (ABA) DID NOT RECOMMEND FOR WOMEN TO TAKE.

Huzoor (aba) replied: “Music, sports, police, army [...] otherwise all other careers are good for women. Girls should choose those careers – even boys – which are useful for human beings, for humanity”.

**SARA AHMAD SAHIBA ASKED IF AHMADI GIRLS COULD  
WORK IN THE FIELDS OF PHYSICS AND SPACE. HUZOOR  
(ABA) SAID:**

“Yes, they can. If you are bright enough and capable in physics [...] then go ahead. There was an Ahmadi PhD lady who worked in the space centre in Switzerland where they are doing experiments on the Big Bang, etc.” Huzoor (aba) said if Ahmadi girls did not gain a good education, then how could they teach other Ahmadi girls, or know about things like physics, etc.?

Huzoor (aba) added, “However, the roles that women have are essential to fulfil as well. Women have the role of taking care of the household, bringing up their children; this is important too.” Huzoor (aba) said these tasks had primary importance, and other work and studies came after. “Try to use your education for the betterment of your children, not just for earning money,” Huzoor (aba) said.

Manahil Akbar Sahiba, who is doing a Master's in Economics, said universities offered students to go abroad for one or two semesters to study and gain experience. She asked if Ahmadi girls were allowed to do this. Hazrat Amirul Momineen (aba) said that a mature Ahmadi girl who was doing her Master's knew well the difference between good and bad, her life purpose, how her morals should be, how to worship and what to avoid, etc. Keeping this in mind, if the university's atmosphere was healthy and there was separate accommodation available to live in, then Ahmadi girls doing a Master's could study abroad. Huzoor (aba) said that the concerns of parents should also be taken into consideration.

**“If your faith is strong and you are modest, and the purpose is only to study and not be involved in various immoralities, then there is no harm,” Huzoor (aba) said.**

# PRIMARY RESPONSIBILITIES

Discussing the primary responsibility of Muslim women according to Islam,  
Huzoor (aba) said:

“Justice demands that you first take care of your household – in Islam, the primary duty of women is to take care of the home, to do the tarbiyat of their children to make them good and pious servants of faith and good human beings for their country, nation and faith.”

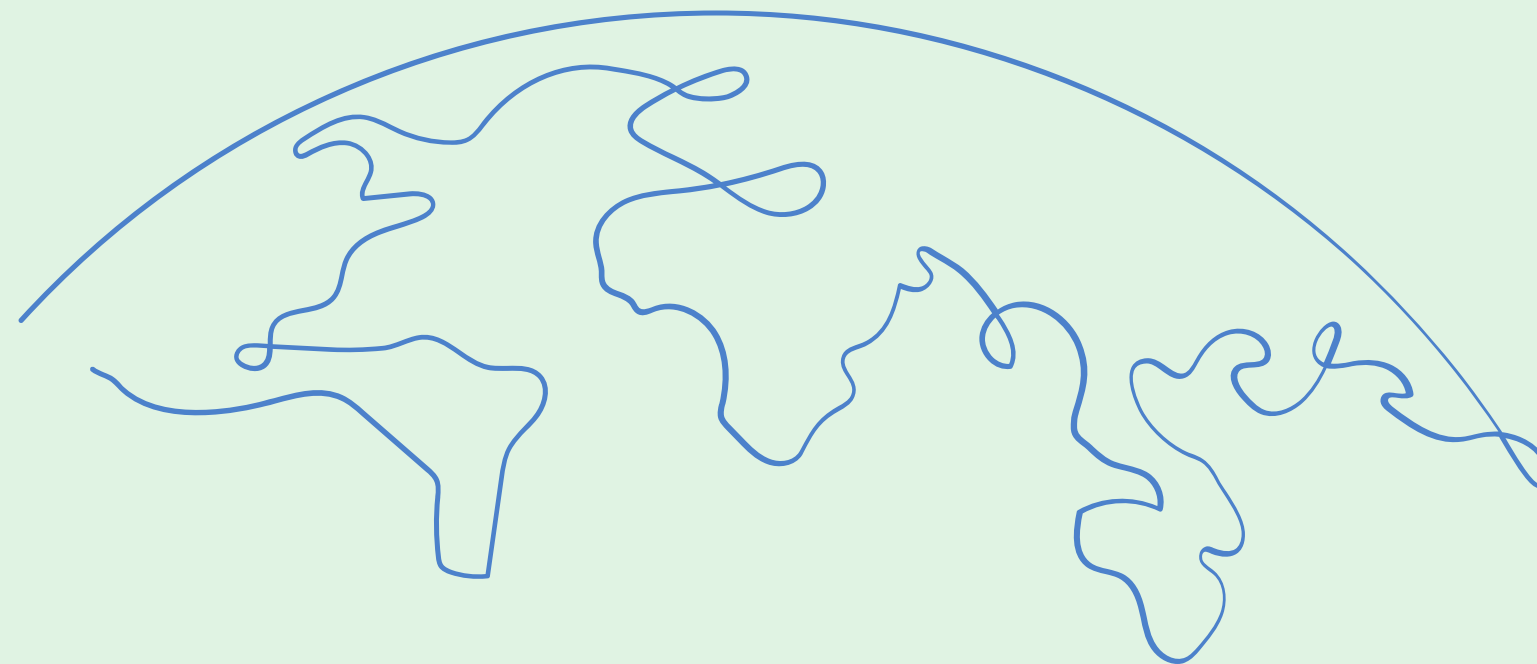

“Whatever education women have attained, they should use it to bring up their children. Then, whatever time is left, you can study further and if you are in any profession – a doctor or a teacher, etc. – you can work too. After arriving home [from work], take care of your household, do the tarbiyat of your children and also do whatever professional work you have.”

**HUZoor'S ADDRESS SPOTLIGHT:**

**THE EQUALITY OF WOMEN AND  
THEIR ROLE IN SOCIETY  
25TH FEBRUARY 2017  
- WAQFAT E NAU IJTEMA**

“The younger girls present should also understand the importance of education and should try to excel in their schools and colleges, whilst also striving for religious knowledge. Even at your young age, you should keep in mind that your education is the means through which you will, Insha’Allah (God Willing), come to serve Islam. Never bear any complex about your faith, whether in regard of Islamic teachings or in terms of the observance of your faith.”
